

Experience SaaS Simplicity, Security & Savings – 6 Months Free!*

Switch to Druva from **Veeam**, get up to 6 months free!*

Your data deserves better than Legacy, plain and simple. Leap to the cloud and forever break from the stress and hassles of DIY data protection. With NO infrastructure, NO manual updates, and NO hidden costs, Druva 100% SaaS solution is fully managed and unifies data protection across data centers, SaaS apps, and the public cloud while saving you up to 40% TCO!

See for yourself! Switch to Druva from Veeam and get up to 6 months of our industry-best, fully managed SaaS data protection FREE.

Ditch DIY and let Druva do the hard work for you

100% SaaS means simplicity! Druva brings a single, fully managed, unified management console across workloads and locations, with automated workflows for fast deployment. Everything is included on day one at no extra cost — storage, compute, software, and security.

Kiss ransomware goodbye with air-tight security, guaranteed recovery

Veeam's Windows-based architecture is a favorite among hackers. Stay out of the ransomware headlines with Druva! Accelerate response and recovery with anomaly detection and curated recovery across workloads. Druva guarantees recovery up to \$10 million.

No infrastructure or pricing headaches = major cost savings

Remove software and hardware and reduce IT overhead. Scale on-demand, auto-tier backups from warm to cold storage, and leverage cloud DR to drive up to 40% in savings. Straightforward pricing means you only pay for the storage you actually consume — no surprises!

*One time promotional offer: 2 months off for 12-month subscription, 4 months off for 24-month subscription, 6 months off for 36-month subscription. Must be a current Veeam customer. Available for a limited time.
